Sexual Harassment Policy

The Legal Practice Council (LPC) urges all legal practitioners to familiarise themselves with the Sexual Harassment Policy that has been placed on its website and use it as a guideline to adopt and align to their internal sexual harassment policies.

The Council is aware that both harassment and sexual harassment are dealt with in the Code of Conduct, but the Council hopes the policy will be of great assistance to complainants and will ultimately be adopted by legal practitioners to address sexual harassment within the legal profession.

Practitioners are requested to click on the link below to access the policy
