

TAILOR-MADE CYBER INSURANCE SOLUTION

AS UNIQUE AS YOUR NEEDS

Shackleton Risk Management, in partnership with **Genoa Underwriting Managers** are pleased to introduce you to a tailor-made cyber solution through **Phishield UMA**, underwritten by **Bryte Insurance Company Limited**.

Cyber Protect is designed to protect you in the event of a Cyber Emergency. Cyber Emergencies include unauthorised acquisition, access, disclosure, or losses of personally identifiable information that is in the care, custody and control of your business; unauthorised access to or use of the computer system; infection of the computer system by malicious code or transmission of malicious code from third-party systems; denial of service attacks and lastly, cyber extortion. When dealing with us as your broker, your firm can be confident that it will receive second-to-none Individual based service from our brokers located throughout South Africa.

We will be your direct point of contact as your dedicated and trusted Broker.

With over 24 years offering a number of niche market commercial insurance products to professional persons, we understand the importance of service excellence and general efficiency.

At Shackleton Risk Management we

- Offer an easy application process
- Are represented throughout South Africa
- Provide products through the use of thorough risk analysis techniques
- Always look to source highly competitive rates.
- Offer a variety of other products, including Fidelity Guarantee, Misappropriation of Trust Funds etc.

One of our advisors will perform a risk assessment and advise you on the product that best suits your needs. You will also receive expert advice on the products offered as well as assistance with the application via in-person or virtual meetings, whichever is your preference.

Let us help make the process of protecting you and your firm as seamless as possible and assist you in making an informed decision.

For more information, please email **Jason Labuschagne** on jasonl@srisk.co.za
